Web Series

SO, WHY TV SHOWS ARE KNOWN AS DAILY SOAPS ?

TV serials are called soaps, or soap operas, because the original ones, which started on the radio in the 1930s, were produced and sponsored by Procter and Gamble (which makes Tide, Dawn, Pantene, Cascade, etc). When the radio shows moved to TV, Procter and Gamble continued to produce and sponsor them.

TV SHOWS

- A **television show** (often simply **TV show**) is any content produced for broadcast via over-the-air , satellite , cable , or internet and typically viewed on a television set , excluding breaking news , advertisements , or trailers that are typically placed between shows.

WEB SERIES

- A **web series** is a series of scripted or non-scripted videos, generally in episodic form , released on the Internet and part of the web television medium, which first emerged in the late 1990s and become more prominent in the early 2000s . A single instance of a web series program can be called an episode or "webisode ", however the latter term is not often used. In general, web series can be watched on a range of platforms, including desktop , laptop , tablets and smartphones

WHY T.V. SERIALS ARE IN SAD STATE ??

- Finally, they are **meanless**—Cinimax for these soaps mysteriously come back from the dead with a does not exist, seriously they can drag it for years vague story.

NOW , WHY WEB SERIES ARE GETTING
POPULAR ...

- Webseries have limited episodes (sometimes in seasons), many of the tv serials drag endlessly for years with no hiatus in between to allow the creative team to improve the story. Quality of the serials turns crap after a while .
- Webseries allows room to experiment with new or bold concepts. Most Indian serials keep showing the same bullshit drama with different actors. Even if there is a show with a non conventional concept, it gets taken off air due to low TRP.
- Nowadays many people don't have time to watch TV so they prefer the internet for entertainment

Conclusion

So if you want to enjoy the drama
go for TV shows
But for fresh and real content go
for web series.
